

FLYING SQUIRRELS

R U L E S

Animal Whimsy Picture Puzzle Game

The game may be played by 2, 3, or 4 players and the first player to complete his picture puzzle wins the game.

Each player chooses one picture puzzle, and places all the parts of his puzzle, except the frame, face down in the center of the table. Then all puzzle parts are shuffled together face down. Each player keeps the frame he selected face up before him.

TO START, each player rolls the single die, and the highest number plays first. If there is a tie, roll again. Play then proceeds clockwise. Each player rolls the die once, in turn, and selects the same number of puzzle pieces from the center as appears on the die. Example: If 5 appears on the die, the player selects 5 pieces from the center.

A player may keep all pieces bearing the same color as his frame. He must immediately return to the center face down all pieces that do not match his frame.

Each player puts his picture puzzle together as the others roll and select pieces. The first player to complete the puzzle wins the game.
