Rules for "Deal-A-State"

There are 49 cards to this deck. Dealer deals 5 to 7 cards (optional) to each player. Remainder of deck to be used for drawing.

Player left of dealer draws one card from deck and discards one card. Next player may use the last discard or draw from the deck.

Object of game is to connect 5 or 7 states (depending on the number of cards used). Washington, D.C., Card may be used as free card and counts 50 Points. Point numbers in upper right corner are based on land area size of each state.

First player connecting required number of states, wins hand. Other players are penalized according to total points on cards they hold. Player with lowest point total wins game.
