TO PLAY HORSE RACE...
 The game is played on a board which is divided into two halves by a central line. Each half contains a number of squares. The squares are numbered 1 to 12 on each side. The player whose horse is in square 12 starts the race. The horse moves forward one square at a time. The player whose horse is in square 12 starts the race. The horse moves forward one square at a time. The player whose horse is in square 12 starts the race. The horse moves forward one square at a time.

HORSE RACE

This is the same exciting game as played aboard ocean liners for high stakes. Any number of persons can play.

GAME CONSISTS OF Racing Course, 6 Horses, 3 dice and 6 Mutuel tickets.

Can be played as a regular race or Hurdle race. Players may bet on more than one horse if they so desire.

TO PLAY REGULAR RACE: Each player selects a horse and is given a Mutuel ticket showing the number and name of that horse. The Mutuel tickets may also be drawn blind. In order to collect winnings at the end of the race these tickets must be turned in to the stake holder.

Place horses in the starting position on the track. One player rolls the dice throughout the entire race. After each roll of the dice the horses whose numbers correspond to the numbers on each dice move one space. If a double number is rolled that horse moves **TWO SPACES**. If all three dice have the same number the horse moves **THREE SPACES**. The first horse to reach the finish line is the winner.

Play then continues until another horse reaches the finish line. That horse gets second or "Place." The play again continues until a third horse reaches the finish line and gets third or "Show," thus ending the race.

TO PLAY HURDLE RACE: The game is played like regular race except that a horse cannot jump the hurdle unless a double number is rolled on the dice. When a horse reaches the space in front of the hurdle he cannot move on but must wait there until his number appears on two or on all three of the dice. When a double number is rolled that horse can then jump the hurdle and continue. The game proceeds until three horses are "in" as in regular race.

THE PAY OFF: The winning horse receives 60% of the total amount played, the second or "Place" horse receives 30%, the third or "Show" horse, 10%. In case of tie for first place, "Win" and "Place" money is divided equally between the two horses. In case of tie for second place, "Place" and "Show" money is divided. In case of tie for third place, "Show" money is divided.
