

# *Lewis' Duplicate Whist Boards*

~~~~~  
**Patented.**  
~~~~~

*16 Boards*

DIRECTIONS FOR

**Playing Lewis' Duplicate Whist Boards.**

—  
ORIGINAL PLAY.

Place the board on the table with the star pointing North, the arrow points to the first player. Play all the boards through in this manner. Each player places his cards in front of him (instead of throwing to the trick in the middle of the table.) The winning tricks can be laid crossways when taken, in that way the score can easily be kept. When through he places his packet in his section ready to be used again.

—  
DUPLICATE PLAY.

For the duplicate play, begin by placing the boards so the star will point East and play as before, hence the hand North and South had before, East and West will now have. The play is to see which side can make the most out of the same hand. Use one trump for the entire game.
