## DIRECTIONS FOR "GOOD OLD DAYS" PARTY PUZZLE GAME

This box contains four puzzles, each consisting of the same number of pieces. The designs are of the same character but each picture is different and each is backed with a different colored paper. Break up the puzzles and place them in a heap in the center of the table. Let each of one to four players choose his color and gather his pieces from the center heap, and then, setting to work, see which player can complete his picture first.
