CONTENTS:

- *Six mini puzzles, each with 40 pieces. Each image unique and based on Trivia items.
- * 600 question and answer cards, each card pertaining to one of the categories.

GOAL:

To complete your Trivia Puzzle first by answering the most questions and accumulating the most puzzle pieces!

HOW TO PLAY:

Each player receives one puzzle box; if more than six people play, form teams. Everyone chooses at random a question card from the card box. Whoever has the category closest to the start of the alphabet goes first.

That player then takes a card from the top (or end) of the box and announces the category to the player to the left. The player then chooses the degree of difficulty, depending upon knowledge of that subject.

Questions are graded as to difficulty

One puzzle piece: Very easy

Two puzzle pieces: Somewhat easy

Three puzzle pieces: Average

Four puzzle pieces: Hard

Five puzzle pieces: Very difficult

Puzzle pieces are taken from the box for completion if the question is answered correctly, and the player gets another turn. As long as the player answers correctly, that player continues. Used cards are placed at the bottom (or other end) of the deck.
