

DROP-'EM AND WOOD PILE PICK-'EM UP

HOW TO DROP 'EM

1. Gather the sticks in the right hand; place them so that they point vertically and quickly pull your hand away. The sticks will fall into a heap.

HOW TO PICK 'EM UP

1. Singly, pick the sticks up being careful that the OTHERS do not move.
2. As long as NO OTHER STICK MOVES, you may continue to play. If one stick moves you are through and the player at your left takes his turn.
3. Both hands may be used. The PRESIDENT may be used (if you get into difficulty) to flick a stick which is lying on several or to part two that are too close together. BUT NO OTHER STICK than the PRESIDENT.
4. If a stick moves for any reason while you are PICKING 'EM UP, you lose your turn.
