DIRECTIONS

Only 30 Zodiac cards used.

Shuffle and have the person whose fortune is to be read cut the cards three times. Take the top card of each pile, turn over and read top, right side, bottom, left side, linking the three together in story form. Then shuffle cards and proceed as before for two more times making three times in all and reading of 9 cards for one fortune. Put cards back in pack after each reading.

For lucky number: shuffle cards and have one drawn which gives Fortune Lucky Number.

For the answer to your question have the persons who are having their fortune told shuffle the cards themselves, shut eyes tightly, spread the cards on the table, think of their question, and take one card immediately. Question will be answered yes or no.

Cards can be replaced at any time
