

KATZENJAMMER KIDS HOCKEY

Unfold playing board, and place it on a flat surface. Set cover upright at the attached end of the playing board, to prevent wooden pucks from going over the edge.

Player's divide up into two sides, and the fun begins. Each team uses a different color, and each player shoots alternately. Place the puck on the starting line, and flick with your finger. Each puck dropped into a hole counts as 10 points, and the team which makes 100 points wins. If an opponent knocks in your puck, your side receives the score.
