SUGGESTED METHOD OF SCORING FOR JIG SAW PUZZLE PARTIES

- I Completed Picture Scores 50 Points.
- II Uncompleted picture will score by number of pieces in place, one point for each piece.
- III When one player has completed a picture, play should be stopped and scores noted.
- IV Pictures should be disassembled, and placed in boxes to avoid mixing.
- V Puzzles should then be passed to the left and play resumed until each player has attempted all four puzzles.
- VI Score as before and then total. Player with high score wins game and prize, if one is given.
