

# BIG CHIEF

**DIRECTIONS.**—There are seven sets of three cards each. Deal all the cards. The player at the left of the dealer begins the game by asking the dealer for any card he may wish, giving name and number, as Canoe No. 3. If successful he may continue to call and receive other cards from any player until he misses. The next one at the left may call for any cards he may want, until he misses, and so on. The one completing the most sets wins the game.
