1. This game should be played by from three to six players.

2. The pack consists of fifty-two illustrated cards, divided into thirteen sets or books of four cards each. Cards of the same letter belong to the same set.

3. The cards should be shuffled, and an equal share dealt, one card at a time, to each player, after which each player should arrange **CARDS OF THE SAME SET** together in his hands. The letters at the top of the cards will assist the player in arranging.

4. The name or character represented by a card is the name prominently lettered **UNDER THE ILLUSTRATION.** IN CALLING,

use one of the three names at the bottom, the names of the other three cards of the set.

5. The player at the left of the dealer begins by calling from any other player for a card that will help him complete a set, any portion of which he holds. The player called upon gives up the card called for, if he holds it. If the player calling obtains the card asked for of the person asked, he puts it in his own pack with his other cards of the same set and continues calling for other cards from any of the players. The player calling loses his turn when he demands a card of a player who does not hold it; it then becomes the turn of his left-hand neighbor to call, and so on in turn.

6. When a player calls for a card which he already has, he **FORFEITS IT** to the player from whom he calls it.

7. **THE PLAYER WHO FIRST MAKES A SET IS GIVEN 10 COUNTERS,**—the **SECOND SET** wins **5** counters, whether won by the same or another player, **THE NEXT 4** counters, the next **3**, the next **2** and the next **1.** **AFTER** that the value of the sets increases again. The seventh set counts **2**, the eighth **3** and so on, each succeeding set counting one more up to the thirteenth, which counts **8.** The player who at the end of the game has the **MOST COUNTERS,** is the **WINNER.**
