INSTRUCTIONS: Push out one puzzle-city block, car or truck—at a time. Mix up the pieces, then solve the puzzle. When you've solved one puzzle, mix up two or more and solve them. To make it more difficult still, mix up the pieces of all the blocks, cars and trucks, then put them together again.

Many boys and girls can play together with these amusing puzzles. Set up city blocks, cars and trucks on the platform of this box, on the floor or table top. Each puzzle will stay together as you move it about. Leave room for streets and traffic. Then drive the cars and trucks all over your city.
