

HOW TO PLAY ALEE-OOP

The game consists of —1 container.
17 oops of which one is black.
4 flippers.

Place the container on the table and try to flip the oops into the can, (see illustration on can). At any time you feel at your "tops" yell ALEE-OOP and flip Oscar, the black oop, into the can. He is a very valuable oop and is worth plus 5 if in the can and minus five if he misses. After you have had one try at each oop total the oops in the can as follows:

Oscar.....	5	if in, minus five if out.
Red	4	for each oop in.
Blue.....	3	" " " "
Yellow.....	2	" " " "
Green	1	" " " "

After your seventeen oops have been flipped pass the can and oops to the person at your left and have the laugh on him. When each person has had four turns total your score. The winner has the highest score. FUN for ALL and ALL for FUN.

Game 2—"Oscar"

Place the container on the table.

Four players choose their colors and flipper to match. Flip your own oops into the can.

When you miss, the person at your left has a fling at his oops and so on around the table until one person gets all his oops in the can.

This is not all. He then has to flip Oscar into the can. This will enable the remaining three players to get their oops into the can. As each person gets his oops into the can he in turn tries Oscar. This way the first may be last and the last may be first.

FUN for ALL and ALL for FUN.

Game 3—Killer Flipper

This game is played exactly as Game 2 except to end the game after the first player has flipped all his oops into the can he must flip the flipper of the person at his left into the can then around the table. Once a flipper is in the can the player is dead, hence *Killer Flipper*. FUN for ALL—ALL for FUN.
