

## LITTLE RED HEN

Each player selects a marker, spins the spinner to determine playing order. Highest number starts by putting his number on START No. 1. Each man in turn moves his markers according to the total of the inner and outer circles of the spinner.

From No. 50 up he moves only according to numbers on the inner circle. Every time a player lands on a picture with a blue number he has an additional turn. If he lands on a picture with a red number he takes another spin and moves back according to the total of the inner and outer circles. Man reaching No. 72 first wins, but must be reached exactly, otherwise he loses his turn.

When using markers on right side of board cut them out on black lines and fold them down on center dotted line and up on both outside dotted lines so they will stand up.

NO. 581-7. MADE IN U. S. A.
