

## DIRECTIONS

Querant shuffles and selects 24 cards.  
Reader lays in 3 rows of 8 cards each, alternating with laying card lengthwise.

Read in pairs as 1st and 24th, 2nd and 23rd, etc. 1st and 16th, 2nd and 15th, etc.

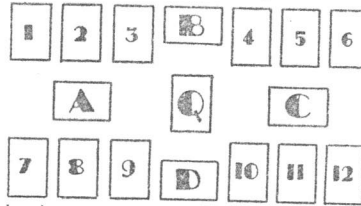

This layout should be repeated three times.

After this cards should be laid with Querant card in center, with 5 piles of 3 cards each, one to left, one top, one right, one bottom and one lengthwise on Querant card, which is the unexpected.

Pile to left	Great consequence.
Pile at top.	Very near future.
Pile at right	To the home
Pile at bottom.	Fate
Pile on Querant.	Unexpected.

## DIRECTIONS

Place Querant card in center of table.  
Querant shuffles deck, making wish, selects 12 cards hands them face down to Reader.  
Reader lays them as follows;

leaving space between groups for insertion of other cards.

1st group 1-2-3 concern Querant  
2nd group 4-5-6 concern the Home  
3rd group 7-8-9 concern a loved one  
4th group 10-11-12 hopes and ambitions.

Querant then shuffles remainder of cards, selects 4 cards, hands to Reader who places them lengthwise as A-B-C-D—thus forming a diamond. If Wish card appears in diamond it is favorable.

A-3-B refers to Business; B-4-C to Love; C-10-D to Health; D-9-A to Wealth.

To ask time choose one card at a time from balance of pack. The third card drawn indicates the time. Number alone indicates months; number underlined years; unnumbered card, time uncertain.

## The Game of Fortune telling ?

Fortune telling pack

Cards have regular printed backs
