# QUIZ KIDS

## RADIO QUESTION BEE GAME

Published by arrangement with LOUIS G. COWAN,  
originator of the "Quiz Kids" radio program.

### INSTRUCTIONS

This game consists of 36 cards with 72 questions. The correct answers are printed on this sheet. The game may be played by any number of persons. One of the players is chosen to act as Master of Ceremonies. He reads the questions, checks the answers, and keeps score. A time limit of 10 minutes is set for each game. The cards are placed in a pile in front of the M.C. The answer sheet, a watch, and paper and pencil for keeping score are near at hand. The M.C. draws the card from the top of the pile and reads the question aloud. Any player who knows the answer raises his hand. The M.C. calls upon the player who raises his hand first. If the answer is given correctly, the M.C. credits the player with 10 points. If the answer is partially correct, the M.C. may give the player part credit. The player having the most points at the end of the ten minutes, wins the game and becomes the M.C. for the next game. The questions that have been answered, are put aside and not used in the second game. When all the questions printed on one side of the cards have been used, the cards are turned over and the questions on the other side are used.
