DIRECTIONS FOR PLAYING GAME OF CIRCUS

To be played by two people. Each player has an equal amount of money to start with. Cut out the 30 squares (15 red and 15 black) which represent the money. The number of points to move is shown by spinning indicator. When player comes to lemonade stand he is expected to buy and take the long route out. If player's number does not land him on the lemonade stand, he turns to left and continues moving. Every time player lands on stands or shows, he is expected to pay 10c. When Reserved Seat stand is reached, he takes the course to left and spends 50c. for reserve seat; if the number does not land player on the Reserve Seat stand, he goes to right and enters Main Show.

The winner of the game is the one who has the most money on entering the Main Show. Any player who spends all his money without getting inside the main tent goes "broke," and is out of the game.

How To Make Indicator

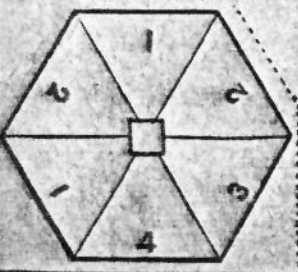

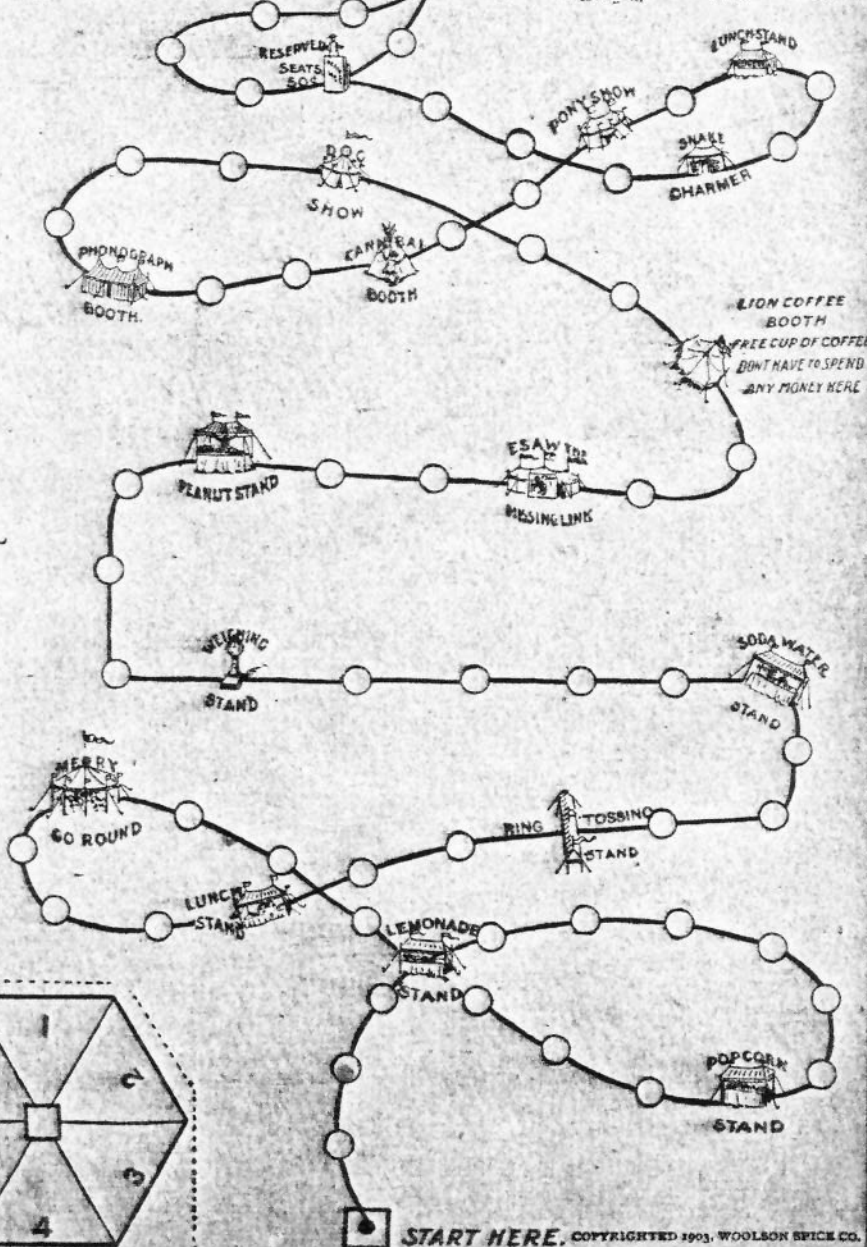

Cut out indicator on other side. Make a spinning top of it by cutting small piece of wood (see picture at side) and inserting in center of indicator.
