

## Leap Frog

(Lion Coffee game premium by Woolson Spice Company)

### DIRECTIONS

Cut out the frogs and bend along the dotted lines so they will stand up; also bend up the reeds and others parts of the pond that are made to stand up.

Each player then chooses a frog, and players take turns snapping (this should be a delicate snap, or, in other words, a **push** with the forefinger,) the frog from the "jumping-off point" (about two feet from game) on to the pond. If only two are playing, they take two frogs apiece. After all four frogs are landed, see which player (or side) has the highest count.
