

Wolf and Sheep

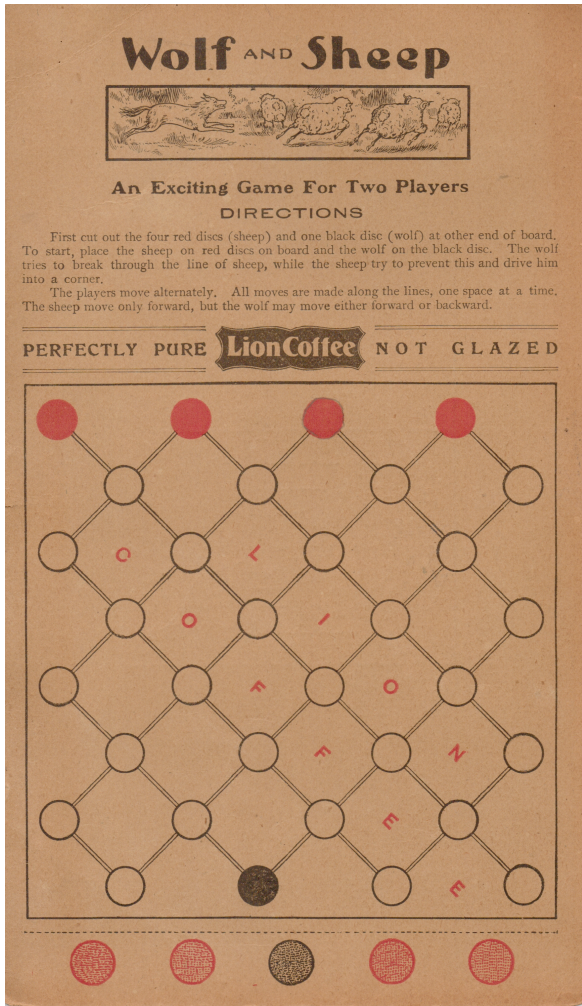

An Exciting Game for Two Players

DIRECTIONS

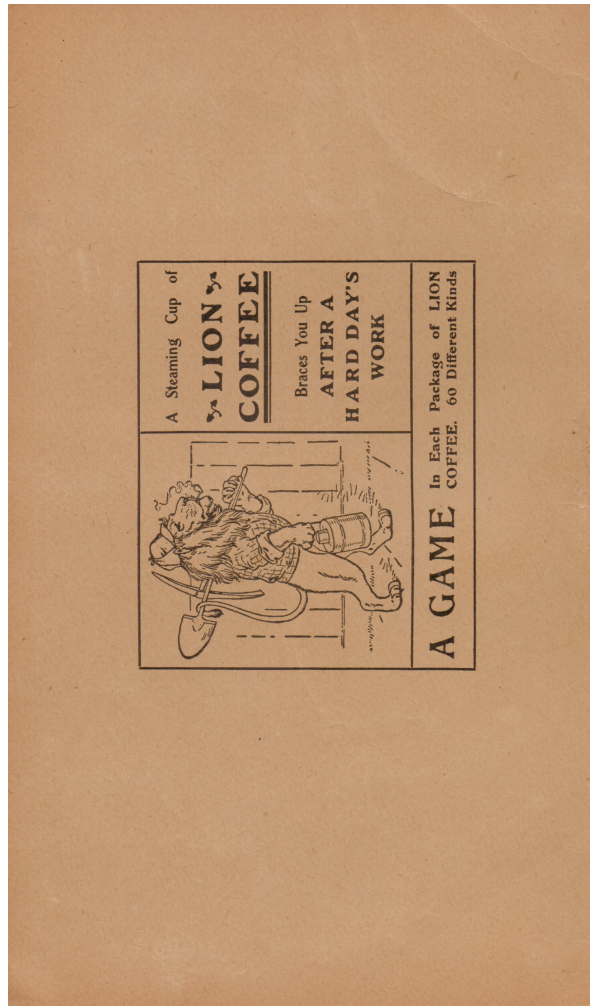

(Lion Coffee game premium by Woolson Spice Company)

First cut out the four red discs (sheep) and one black disc (wolf) at other end of board. To start, place the sheep on red discs on board and the wolf on the black disc. The wolf tries to break through the line of sheep, while the sheep try to prevent this and drive him into a corner.

The players move alternately. All moves are made along the lines, one space at a time. The sheep move only forward, but the wolf may move either forward or backward.
